Luis Alejandro Varela Ojeda

Software Engineer | Full-Stack and Mobile | DevOps

DevSecOps · Platform Engineer · Site Reliability · Reliability · Observability · CI/CD

Medellín, Colombia · +57 301 614 9692 · luisvarela2002@gmail.com · luvarelao@unal.edu.co · linkedin.com/in/luisvare-la · github.com/LuisVarel4

PROFESSIONAL SUMMARY

Software Engineer with more than 3 years of technical experience, including over 1 year building full-stack and mobile software, and a final-semester Systems and Computer Engineering student. Delivers features from requirements through production support, using clean architecture, API and database design, and asynchronous event-driven workflows across web and mobile clients. Works with Linux, Docker, Kubernetes, CI/CD, Amazon Web Services (AWS), and observability with Prometheus and Grafana. Joins planning and requirements refinement to turn business problems into technical solutions.

WORK EXPERIENCE

Software Engineer

Activeone | May 2025 – Present | Medellín, Colombia | Remote

- Delivered full-stack web and mobile features end to end, from discovery and technical design through implementation, code review, and production support.
- Joined planning and requirements refinement, and proposed technical solutions to business problems with product and engineering partners.
- Applied clean architecture so domain rules, API contracts, and client behavior stayed consistent across web and mobile.
- Managed data models, queries, and integrity between databases and application services.
- Designed asynchronous event-driven flows for integrations and background processing.
- Kept authentication, error handling, and delivery flows predictable in production.

Frontend Developer

Freelance | June 2024 – October 2024

- Built client-facing web interfaces with React and TypeScript, using reusable components, clear state boundaries, and consistent API integration.
- Applied responsive layout, accessible structure, typed UI contracts, and explicit loading and error states.
- Used Git for small reviewable changes and Docker so the local environment matched how the application was delivered.

Auxiliary Student, Web Management

Universidad Nacional de Colombia | August 2024 – July 2025 | Medellín, Colombia | On-site

- Managed the Bienestar Minas website with Joomla, Bootstrap, HTML, CSS, and JavaScript, and maintained internal student records.
- Worked with secretaries, lawyers, social workers, and psychologists to turn operational needs into site updates, data, and reports.
- Maintained databases, supported workshops, and automated repetitive tasks with Python.

Monitor

Universidad Nacional de Colombia | February 2023 – July 2024 | Medellín, Colombia | Hybrid

- Graded assignments and automated recurring academic tasks with Excel, Python, and Apps Script.
- Led sessions and presentations for classes of up to 200 students.

TECHNICAL SKILLS

DevOps and cloud: Linux, Docker, Portainer, Kubernetes, Nginx, Traefik, ngrok, WireGuard, Prometheus, Grafana, Git, GitHub, GitHub Actions, Jenkins, CI/CD, Amazon Web Services (AWS), IAM, Lambda, S3, SQS, Step Functions, Google Cloud Platform (GCP).

Mobile and frontend: Flutter, FlutterFlow, Kotlin, React Native, React, Vue.js, Next.js, Astro, TypeScript, JavaScript, Dart, Tailwind CSS, Pinia, TanStack, Firebase Cloud Messaging, Google Play deployment, Figma.

Backend: Laravel, Django, Node.js, PHP, Python, Java, C++, REST APIs, microservices, clean architecture, JWT.

Databases: PostgreSQL, MySQL, Redis, DynamoDB, Firebase, Supabase, Snowflake.

AI: Cursor, Claude, ChatGPT, GitHub Copilot, OpenCode, Grok, MCP, agent skills, spec-driven development, current tooling updates.

Practices: Agile planning, requirements refinement, code review, Jira, Atlassian, Slack, Linear, Google Workspace.

Languages: Spanish (native), English (B2).

EDUCATION

Systems and Informatics Engineering, final semester

Universidad Nacional de Colombia, Medellín | October 2021 – Present

Diploma in Programming and Web Development

Universidad del Norte | October 2020

ACHIEVEMENTS

- Active participant in national and international competitions, representing Universidad Nacional de Colombia.
- Medals in competitive programming, swimming, and water polo.
